FARMASIA

Farmasia covers the pharmacy sector, medical industry, pharmaceutical wholesaling, hospital pharmacy and pharmacy training with articles that seek to promote pharmaceutical expertise.

Farmasia also covers international industry news and events in addition to developments in the Finnish pharmacy industry. Labour market questions are also a key focus area for Farmasia. Farmasia follows union activities, issues related to education and training, as well as health care as a broader social issue. Farmasia looks at developments in the pharmaceutical industry from diverse perspectives. Our journalists are health care and labour market experts with comprehensive experience in their fields. Farmasia's readership includes pharmacy professionals, students and stakeholders in pharmacies, hospitals, health centres and the pharmaceutical industry. Farmasia is the trade journal of the Finnish Pharmacists' Association, and 85 per cent of our readers are members of the Association. Established in 1917, the Finnish Pharmacists' Association is a nationwide full-service trade union for pharmacists, licensed pharmacists and pharmacy students. It is a membership organisation of AKAVA, the Confederation of Unions for Professional and Managerial Staff in Finland. The Finnish Pharmacists' Association supervises the interests of its members and seeks to develop their professional competence and community spirit.

The journal is a member of the Finnish Magazine Media Association.
